About Me

Passionate and self-driven Front-end Developer with hands-on experience in building modern, responsive web applications using **React.js**, **Next.js**, **TailwindCSS**, and **TypeScript**. Strong focus on clean code, SEO optimization, and component-based architecture. Experienced in delivering real-world projects from scratch to deployment. Open to both **on-site** and **remote** opportunities.

SKILLS

Languages & Frameworks : JavaScript, React, Next Js, Three js

Styling : TailwindCSS, SCSS/SASS, Responsive Design

Tools : Git, Github/Gitlab , figma (basic)

Other : REST APIs, SEO, Clean Code

EXPERIENCE

FD Arya — Corporate Website for Manufacturing Company

Stack: Next.js, TailwindCSS, Sass

Live: fdarya.com | <https://github.com/MahanZandi/fdarya.com>

Designed and developed a full-featured, SEO-optimized corporate website for *Faravardeh Arya* company. The project showcases company information, product listings, and team members.

- Built the project entirely from scratch and handled both frontend logic and deployment.
- Applied modern UI design practices with full responsiveness.
- Focused on SEO, performance, and clean code architecture.
- Developed and launched within a 3-month timeline.

EXPERIENCE

Personal Portfolio Website (Work in Progress)

Stack : Next.js, TailwindCSS, Sass

GitHub Repo : github.com/MahanZandi/my-portfolio

A personal website designed to showcase my work, with both dark and light themes and a clean, modern design.

- Built with accessibility and responsiveness in mind.
- Focuses on visual presentation and user experience.

Languages

- Persian – Native
- English – Intermediate

Learning & Growth

Constantly learning through official documentation, YouTube tutorials, and real-world practice. Always staying up-to-date with modern frontend technologies.
